Deb Ann and her husband serve the Lord in an Oasis in the Middle East. Deb Ann has lived there since 2012. The Oasis is a totally unreached people group, 100% Muslim. They are the only believers in the community.

They have a heart to set up a House of Prayer, currently waking up before the call to prayer (which is around 3am in the summer), to worship, take communion and pray for the people in the Oasis and nation.

She also has a project encouraging the ladies in the community with their handicrafts and embroidery, enabling them to sell their products in the city.

They desire to be salt and light in a dark place, doing life with people and families around them, showing them the love of God, in every area possible.

# GEORGINA BATUCAN

## PHILIPPINES

- » Children's work
- » Developing Gospel Communities

My name is Georgina Batucan and I am an Elim Missionary working alongside my husband Joseph in the Philippines. Joseph and I have been married since December 2019 and have been parents to Elijah since February 2021.

I (Georgina) grew up in and attended Ealing Christian Centre (ECC) from a young age. I grew up with missionary parents (Mark and Cora King), so missions was always in my life in a way. In 2004, my family and I moved to Cebu, Philippines as full-time missionaries. I spent 3 years in the Philippines and was mainly involved in worship and children's ministries.

### Our vision

Our prayer and vision for Mactan Island and Cebu is to train and disciple strong Gospel Communities and planters and to plant GCs at an exponential rate, through sharing our life experiences and values and establishing relationships. We believe that raising up leaders within households and amongst the children in the feeding programs, we will see generational growth within the GCs.

## JAPAN

- » **Ministry to young people and young adults**
- » **Teaching**
- » **Discipleship**

‘Our heart has always been about the Next Generation. It’s so important in today’s society that we sow into the lives of young people and young adults; teaching them so that they learn life skills, journeying with them so they receive purpose, and loving them so they accurately see who Jesus really is.

For us, we want to see the Next Generation in Japan grow in an environment where Christ is present and they live the life God intended for them to live. Through healthy theology, creative community and disciple-making mission, we want to birth Gospel Communities around the country where disciples make disciples, who make disciples.

We are currently seeking the advice and assistance of Ealing Christian Church who have connections in Japan & planting gospel communities.

Having led worship at Hollybush Christian Fellowship for 9 years in North Yorkshire and heading up the PR side of the ministry for Metro World Child (MWC) in the UK for 7 years, Janine became restless in singing and preaching about reaching the lost and had an urgency in her spirit to action.

The opportunity to head up the work of MWC in Kenya fulfilled a childhood call that she received at the age of 5 to serve on the mission field in Africa. So she moved to Kenya in 2012 at the age of 53 and currently the team there are reaching over 68,000 children weekly with the Sunday School program which has grown from 12,000 children in 2011.

They also operate a child sponsorship program feeding 2250 children daily, providing uniforms, school book bags and supplies, food vouchers, and grants to improve facilities at local schools.

# TERRY AND JUDI MOTT

## KENYA

- » **Hope and Kindness**
- » **Children's home**
- » **Agricultural college**

In July 2002 Terry and Judi Mott and their 2 children, Tom and Ellie, left their home in Redditch and spent 12 months living in Kosele, a small village in an extremely poor part of rural Western Kenya. In that year they started a children's home and school. Since then things have gone from strength to strength and the children's home and school in Kosele are thriving.

Unfortunately the frequent droughts, HIV, unsafe drinking water and a lack of affordable treatment for diseases like malaria, TB and typhoid continue to make Kosele a very tough place to live.

Hope And Kindness has established Kosele Christian Community children's home and schools. The children's home was started in 2002 and currently cares for 30 orphans, mostly teenagers. The primary school provides free education to around 180 children, mostly orphans and vulnerable children, aged from 3 to 17.

An agricultural college has recently opened to provide post-primary academic and vocational education. The project's own farm is now providing much of the food requirements as well as a teaching facility for the college and the community.

Tim is Operations Director. He is responsible for the computer department, finance, the facilities team and project funding. Sometimes it is strange not to be working directly with the projects, but the people Tim's teams are serving are having some sort of impact in around 120 Bible Translation and Language Development projects!

Ali is currently working as a data archivist, trying to keep track of all the information we have about the languages of Nigeria. It involves working with multiple partner organisations and encouraging all the various groups and individuals working on projects to keep submitting information and articles into our global information systems.
